1.01 Memorandum

1. The International Skating Union supports competitions in Short Track Speed Skating for Juniors C and D through its Development Program.

3. As a combined effort the ISU Members involved plan to have additionally a Final Competition for which a limited number of Skaters can qualify through the competitions of the series.
4. This Memorandum has been developed to ensure an adequate and consistent standard of organization of these Competitions. It shall provide guidance concerning technical and administrative matters as well as other important subjects.
5. This Memorandum does not exempt the organizers and Officials from carefully following all ISU Rules and Communications related to the organization of International competitions. All Competitions must be conducted strictly in accordance with the ISU Rules in effect at the time they are held.

*) With reference to ISU Communication No. 2469 until further notice Skaters belonging to the Russian Skating Union or Skating Union of Belarus shall not be invited, entered or allowed to participate.

1.02 General Principles

1. All Competitions of the European Competition Series, except the Final Competition, are in principle open to all ISU Members, but in order to give all an equal benefit of the ISU support it is necessary that, for StarClass – and Danubia Series, everybody participates in their own region.
2. When a skater is entered for a Competition of the Series, the entry data must include clear reference to the ISU Member the skater is representing. This is necessary to be in accordance with ISU eligibility Rules.
3. In order to coordinate the activities of the Organizers of Competitions in the StarClass Series and the Danubia Series, and also to advise on unforeseen matters arising, a group of experienced Officials and Organizers, hereinafter called Coordination Group, has been appointed. The Coordination Group will monitor and decide upon the entries, oversee the implementation of this Memorandum and liaise with the organizers on their marketing and promotion plan and any other matter that may arise.
4. The Coordinators for the European Short Track Series are :
Mr. Peter Breukel (StarClass Region)
Mrs. Monika Radkowska (Danubia Region)
Mr. Reinier Oostheim
and any assistants they may require.

1.03 Competitions

1. In total a maximum of 6 competitions for Juniors C and D are planned.

Section 2 : COMPETITIONS SERIES

2.01 Categories and Age limits

- In the series the following Categories are applied, for both Women and Men, as specified in Rule 108 of the ISU General Regulations ;
 - Junior C Age 13 and 14
 - Junior D Age 11 and 12
 - Age before July the 1st preceding the Competition
- Entries can only be accepted if a skater is entered into the correct age category according to their date of birth.

2.02 Definition of Competitions

- StarClass Series Competition : for Skaters in the age category Junior C and D 3 competitions in the StarClass region;
- Danubia Series Competition : for Skaters in the age category Junior C and D 3 competitions in the Danubia region;
- Based on competition logistic considerations and the circumstances in the region where a competition is held, the organizer may nevertheless include other age categories in the program of the Competition.

2.03 Time limits

- Minimum times skated by the Competitors are required to guarantee the quality of the Competitions and to keep the number of participants within reasonable limits. The total number of entries should not exceed 50 for each category.
- Indicative time limits have been set based as follows:

	500m	777m	1000m
Women Junior C	53.00		1.51.00
Women Junior D	55.00	1.28.00	

	500m	777m	1000m
Men Junior C	50.00		1.45.00
Men Junior D	55.00	1.26.00	

- Skating a time faster than a Time Limit on ONE (1) of the distances is sufficient to be eligible to participate.
- Updated time limits can be included in the announcement of each competition if deemed necessary.
- In order to support the participation from ISU Members, and the development of Short Track Speed Skating within these ISU Members territory, other criteria are set if the respective ISU Member has only one (1) Skater entered in any of the categories.
- If a country is represented by one skater in a category then this entry will be considered as a Wild Card. This one skater can be a club-skater (entered by a club) or a national-skater (entered by the ISU Member direct). If there are more skaters from the same country the above limit times apply for all skaters. For safety reasons the best times of this one skater must be within the following time limits;

	500m	777m	1000m
Women Junior C	58.00		2.01.00
Women Junior D	1.00.00	1.35.00	

	500m	777m	1000m
Men Junior C	55.00		1.55.00
Men Junior D	1.00.00	1.33.00	

- If the entries from a country, and the sum of all club entries in a category, is higher than one (1), then all skaters must comply with the Time Limits as listed under paragraph 4.3
- It is the intention to enable as many skaters as possible to participate. Nevertheless the number of participants should not exceed 50 to avoid additional qualifying rounds. If the number of normal entries is below 50 skaters, there could be a possibility for additional skaters, who have not reached the time limit, to be allowed to participate. This highly depends on local circumstances.
If such an option is possible than a waiting list can be set up in the entry procedure. If a waiting list is made by the organisers all details will be specified in the announcement of the respective competition.

2.04 Entries

- In principle entries can only be made by a Member of the International Skating Union. With the approval of the respective ISU Member, Clubs belonging to this Member may take care of the actual administrative process to make the entries.
- All entries must be made online through the website as specified in the announcement of the respective competition.
- Only in exceptional cases entries can be made by letter, fax or electronic mail to the body or person and within the time limit (closing date) designated in the Announcement for the competition. Such Entries must be confirmed by return of mail, email or fax by the Organizers.

- If the costs of the ambulance service to the closest hospital are not covered by the organizer, then these costs must be indicated in the Announcement.

Incentive is that all Skaters have a guaranteed minimum number of races. Preferably 3 races for each day of Competition, in total at least 6 for a 2-day competition and at least 8 for a 3-day competition
- Relay Races or Mixed Relay Races can be part of the Competition Program. If relay races are to be held it must be specified in the announcement of the competition.
- Relay Races or Mixed Relay Races will be skated as one Round and a classification will be made based on the times skated by the teams.
